MICODUS

MV720 Relay Vehicle Tracker

MV720 is the most cost-effective GPS/GLONASS GPS tracker which can work with all vehicles during 9-100V. Its relay appearance makes it easily hidden under various wires of the car or slipped in a motorcycle trunk. It can help you to protect your car with multiple alarms and remote cut off fuel function.

1.98oz (56g)

31 (L)x31 (W) X 57 (H) mm

-35 degrees ~ 70 degrees
